Coolant Catalogue

Stalwart Coolant Is not only a dynamic, fast-growing and rapidly expanding coolant company. We are a second generation trading firm devoted to making a significant impact in today's commercial world. We are a contract manufacturer, traders of coolants and engine oil that creates high quality, well engineered. Anti-freeze coolant for the customer across the country.

Our expert team, based in UAE & Myanmar, serves consumers all around the region. It is equipped with coolant blending plant with a modern laboratory for quality assurance and is constructed with the flexibility to tailor to customer specifications.

Customer, technical, and logistical support, formulation creation, and laboratory analysis are all part of our services. Supported by state of the art R&D laboratory that is always evolving in order to produce new products.

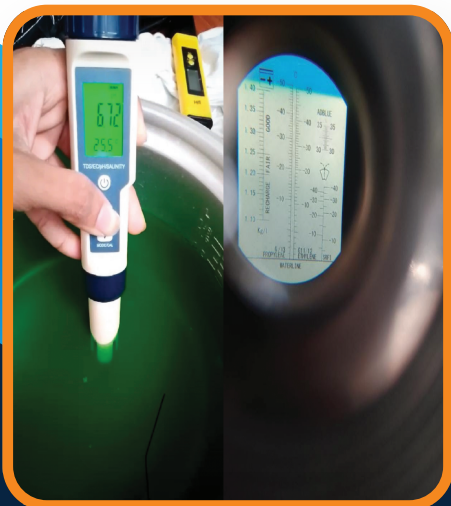

## *You can avail on-site quality testing facilities before use.*

Team Stalwart are striving to understand our current and future customers, in order to better meet their requirement and expectations. Founded in 2017 to develop a comprehensive and independent network of Coolant products, storage and distribution facilities in the in the country.

Our team continues to hold itself to the highest standards for materials and our workforce is dedicated to meticulously upholding the standards of quality and integrity that serve as the foundation of the business. We credit our knowledge, and cmmittment to excellence.

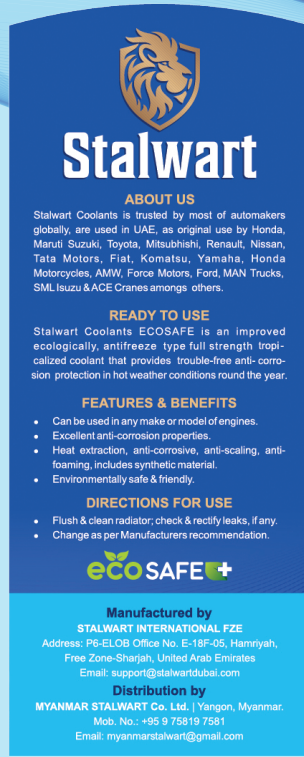

**Stalwart**  
GREEN COOLANT

**ecoSAFE+**

- Anti Freeze (-10°C)
- Anti Scaling
- Anti Foaming
- Synthetic Material
- Heat Extraction
- Anti Corrosive

**TL Ready to use**

**Stalwart**

**ABOUT US**  
Stalwart Coolants is trusted by most of automakers globally, are used in UAE, as original use by Honda, Maruti Suzuki, Toyota, Mitsubishi, Renault, Nissan, Tata Motors, Fiat, Komatsu, Yamaha, Honda Motorcycles, AMW, Force Motors, Ford, MAN Trucks, SML Isuzu & ACE Cranes among others.

**READY TO USE**  
Stalwart Coolants ECOSAFE is an improved ecologically, antifreeze type full strength tropicalized coolant that provides trouble-free anti-corrosion protection in hot weather conditions round the year.

**FEATURES & BENEFITS**

- Can be used in any make or model of engines.
- Excellent anti-corrosion properties.
- Heat extraction, anti-corrosive, anti-scaling, anti-foaming, includes synthetic material.
- Environmentally safe & friendly.

**DIRECTIONS FOR USE**

- Flush & clean radiator; check & rectify leaks, if any.
- Change as per Manufacturers recommendation.

**ecoSAFE+**

**Manufactured by**  
STALWART INTERNATIONAL FZE  
Address: P6-ELOB Office No. E-18F-05, Hamriyah, Free Zone-Sharjah, United Arab Emirates

## STALWART PACKAGING

Stalwart Anti-Freeze-Long Life coolant is recommended for all cooling systems operated in both light and heavy-duty machines.

- It provides superior engine protection from rust and corrosion especially in critical area of engine.
- Extends coolant drain intervals and prevent hard water scale deposits on the engine part.
- Leverage boiling temperature for unsurpassed cooling efficiency and overheat prevention.
- Reduced freezing temperature enable the cooling system to be operated under extremely cold climate.
- Compatible with any rubber, plastic and water pump seals.
- Stalwart Red and Green coolant comes in a variety of container options, including 1L, 4L, 10L, 20L, 200L, and we can tailor the packaging to meet the specific demands of our customers.

### STALWART COOLANT COA DATA

COOLANT CHEMICAL IN%	FREEZING POINT	BOILING POINT	PH VALUE	PRE MIXED ADDIIVES
25%	-10°C	110°C	7.5	Heat Extraction, Anti-foaming & Antiscaling
50%	-40°C	128°C	7.5	Heat Extraction, Anti-foaming & Antiscaling
100%	-70°C	240°C	7.5	Heat Extraction, Anti-foaming & Antiscaling

### Advantages Using Stalwart Antifreeze Coolant

- Compatible:** - Its compatible with additional coolant additives and other strong coolant compositions. For your engines, we advise using premium Stalwart Antifreeze coolant.
- Variable Application:** - It is suggested to use this product for stationary, off-road and on-road engine applications when a longer lifespan is required. It can be applied to engines with variable emission control methods and variable fuel types.
- Excellent Protection:** - Effective, long-term corrosion prevention of frequently found cooling system metals, even at high temperatures. Engine will be effectively protected in high-temperature applications.
- Maximum Hardware Life:** - Maximum water pump life due to minimal water pump seal were.
- Optimal cooling system operation:** - Our innovative composition of chemicals and formula enhances heat transmission and increases overheating-related downtime.
- Managing costs:** - By utilizing Stalwart Anti-Freeze Coolant, you can avoid paying for additional supplements or coolant additives.
- Long Service Life :** - It's a top-notch product with superior quality that will last the entire lifespan of any engine.
